Michelle and co

Thanks for discussion today. For the record below is what we agreed (my red annotations against your recommendations). Decisions are on the basis, NDAC (Duncan) had already been consulted and agreed..

Recommendations for consideration (details below):

1. [S22]
2. Add COVID-19 related questions to the Monthly Population Household Survey (MPHS); **YES**
3. [S22]
4. [S22]

Subject: Household surveys COVID-19 update

Hi,

S22

S22

Recommendations for consideration (details below):

S22

2. Add COVID-19 related questions to the Monthly Population Household Survey (MPHS):

S22

2. Additional COVID-19 related questions on MPHS

Given the nature of this survey (and its connection to Labour Force) data from this option would not be available until June (collection period May) at the earliest. We believe there is still value in implementing this option given that the data produced would be more robust than the RAPID survey (bigger sample) and would be able to draw on the more detailed labour force questions for analytical purposes. **Who knows what will be happening by June, but again this sounds sensible.**

S22

The TEST2004 (HSIP) instrument in the sand pit has been validated by ECCMS and is all ok to be packaged to send off to HIEST (S22 Team).

Thanks again for the quick turn around from yesterday afternoon.
