A majority of the outputs are based off the pivot table in the excel files which was produced from the SAS programs. Apologies for forgetting to do that yesterday.

I'll be at Education tomorrow so if you have any questions please contact me on my email address (CC'd to this email) or on my work phone 47E(d).

Thanks and have a good afternoon.

We discussed the possibility of the afternoon of 9 November after about 2.00pm. I was thinking that we could have the discussion you requested at the same time so am suggesting:

2.00 pm NSSC discussion
3.00-5.00 pm Release of school level data.

If you can't leave civic till 2, we can just shorten the workshop.

I will then begin to process the extension.

If on the other hand, if you decide not to seek extension, please also let me know ASAP so I can begin the separation procedures.

Thanks Michelle – these are very useful comments (and apologies for spelling your name incorrectly!).

In terms of SIH versus HILDA – I think one reason Victoria University suggested looking at HILDA is that it has collected in the past whether a family has a child attending a non-government school, which I don't think is collected in the SIH. Is that right?

Do the following suggested changes to that slide look OK to you?
